The Middle East is exploding in wars that won't go away. You haven't seen anything like what is coming. Bible prophecy describes this future war over Israel. It will be terrifying and final. God identifies the antagonists, exposes their motives, lets them think they will succeed in wiping Israel off the map, and then traps them in the sheer terror of God's curse on their arrogance and rebellion. The prophet Ezekiel saw it clearly. You are about to. "The future war over Israel" on "Prophecy Politics, People, Power: More Than Talk."
