

PROGRAM 75 TEASER

He was a lonely U.S. Marine heading overseas. Among his meager G.I. belongings was a little book. It contained the instructions and information that could release more power than any discovery known to man. Man's bombs and weapons could only kill. But this book told of power that could make dead men come alive. This marine began to read this book—and has never stopped reading it for over 50 years. The One introduced in this book left the young marine stunned, smitten and surrendered. He hasn't recovered in over half a century. Nor does he want to. That younger version is now the older me. Still stunned, smitten and surrendered! What's it all about? You're about to find out—on More Than Talk.

PROGRAM 75 PAGE 1
